

## 1:1 Chromebook Program Device Requirements 6<sup>TH</sup> - 8<sup>TH</sup> GRADE

To support our 1:1 Chromebook program, each student must have a Chromebook that meets the specifications below. If your child already has a Chromebook that meets these requirements, a new device is not necessary.

### Device Requirements:

- Must be a Chromebook
- Minimum requirements for a new Chromebook:
  - Touchscreen
  - Minimum 6GB of RAM (8GB is recommended)
  - Intel or AMD CPU preferred
    - If Intel, avoid Celeron or Pentium CPUs
- At least 64GB storage
- May be refurbished
- Must include ear buds/headphones

### Additional Guidance:

- Chromebook deals can often be found through **Amazon, Target, and Best Buy**, including open-box sales.
- Certain **apps** (Chrome Extensions or Google Play Apps) will be required throughout the year. Teachers will provide guidance in advance. **Parental controls are strongly recommended for app management.**
- Students will be given clear rules on appropriate use during school hours. Chromebooks are **educational tools only**: use for gaming, chatting, or texting is prohibited.
- Do not **pair the Chromebook** with a phone.

A **Student Chromebook Use Agreement** must be signed by both student and parent/guardian before the Chromebook may be used at school.
